"To," "two," and "too" are classic examples, often mixed up by young learners and even native speakers. Understanding why these words cause confusion is the first step toward mastering their correct usage.

The Differences Explained

- **To**: Typically used as a preposition or part of the infinitive form of verbs. For example, "I am going to the park" or "She wants to read."
- **Two**: A number representing the digit 2. For example, "I have two apples."
